

Rolofaca ® is ecological and cost-effective

Its goal is to lay the vegetation cover on the ground and to pinch it to stop the sap rise.

Rolofaca with simple frame.

Rolofaca with adjustable frame, with cutaway discs.

- THE ADVANTAGES OF ROLOFACA ®.**
- No more need for herbicides.
 - Keeps more humidity in case of intense heat.
 - Reduces the amount of work.
 - Enlarges the habitat of the earthworm thanks to freshness and humidity.
 - Forms an exceptional habitat for flora and fauna.
 - Rolofaca is maintenance and wear-free.
 - Reduces fuel consumption, 35% less CO2 emissions.
